## This is My Application for a Spot on the Advisory Board for the Mayo Clinic Center for Social Media

Recently the Mayo Clinic launched its Center for Social Media

and announced the names of 13 well-suited social media stars to sit on its volunteer external advisory board. An additional 12 people will be chosen from nominations and applications. This post is my application.

I've been writing about social media in healthcare since I read [Phil Bauman's groundbreaking "140 Healthcare Uses for Twitter"](#) almost two years ago. The exciting potential for social media in healthcare settings is also cause for apprehension among administrators and clinical staff. What once was so hidden, so cloistered, so proprietary, so inscrutable is now emerging into the sunlight and is becoming collaborative, transparent, open, consumerist and available. It's refreshing and scary.

I started my career in healthcare as a temp receptionist in an orthopedic office over 25 years ago. I have been a consultant, a private practice manager of small practices, a Chief Operating Officer of a very large practice. I've worked with physicians and care providers of all kinds in settings both rural and urban, for-profit and not-for-profit, and I have done most everything in healthcare except serve on the Mayo Clinic Center for Social Media Advisory Board. For the talent portion of my program, I will be interviewing myself live.
