How to Cut Your Medical Practice's A/R and Collection Costs in Just 60 Minutes.

We know patients are bearing more of the financial burden for healthcare, particularly in the form of High Deductible Health Plans (HDHPs), so it falls to the provider to collect the deductibles. How can you collect deductibles, co-pays and co-insurance, as well as electronically manage patient payment plans while reducing the associated labor and resource expense? Register for the Manage My Practice webinar that teaches you everything you need to know to spend less and collect more at time of service by implementing a Credit Card

on File Program in your practice.

What is a Credit Card on File Program?

A Credit Card on File (CCOF) Program facilitates the collection of a credit or debit card from each patient and requires this card to be used for co-pays, co-insurance and deductibles. You have the option of collecting an estimate of what is due at time of service, and/or charging the credit card when the payer pays the claim.

What are the benefits of a Credit Card on File Program?

- Reduced days in accounts receivable.
- Improved cash flow.
- Elimination of statements.
- Electronic management of payment plans.
- Elimination of bounced checks.
- Elimination of the manual refund process and refund check expense.
- Reduced labor in daily reconciliation process.
- Elimination of cash drawers and change issues.
- Reduction or elimination of deposits.
- Facilitate faster check-in and check-out.
- Elimination of paper receipts.
- Elimination of collections expense.
